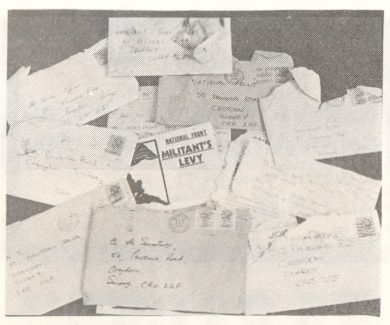
NO. 64 MARCH 1985.

Gremlins at the Post Office

ON THURSDAY 14th February two officials from the Post Office called at the National Front Bookshop in Croydon.

They brought with them a batch of letters which had been removed from our mail by a Post Office employee. They handed back a total of 15 letters, all opened, some with their contents removed.



■ **MISSING MAIL. The tip of the iceberg?**

Whether this represents all the mail that was stolen or whether it is simply the tip of the iceberg is at present unknown. However the bookshop has put in a claim for compen sation, firstly for the letters where clearly cheques or P.O.'s have been removed, and secondly for a substantial sum to compensate for the volume of mail that has gone missing over the last few years.

The National Front Bookshop has asked us to emphasise that only a very small proportion of their mail has gone astray and that most mail does come through without problems. It is some small recompense to see that at last one individual is being prosecuted, and the Bookshop vindicated, for knowing what has been going on for some time.

RE–SEAL

In fact the record of complaints to the Post Office over mail being opened has now stretched into two large folders. We believe that most of this is due to malicious individuals within the Post Office rather than the Special Branch interference which has become an everyday fact of life but which demonstrates a slightly higher degree of professionalism on their part – they re-seal and send on the letters that they open.

This detection of one individual simply shows that the National Front is quite correct in emphasising the urgent need to open up more Regional offices and bookshops and to further expand the delivery system run by the Party.

Victory Parade Outside Gartree Jail

NF . . . 2 IRA . . 0

FOR THE SECOND year running the National Front drove the I.R.A. off the streets of England on the day of their *"Bloody Sunday"* commemoration. **Their planned march on Sunday 3rd February was called off and instead of parading through Leicester City Centre they were consigned to a back street rally which hardly anyone even knew about, let alone saw or heard.**

As soon as the National Front heard that the Troops Out Movement were to hold their pro-I.R.A. march in Leicester an application for a counter march was submitted to the Leicestershire Constabulary. Other groups including the Young Conservatives also announced counter demonstrations, however Leicestershire Chief Constable, Mr. Alan Goodson, made it quite clear that it was the National Front's announcement which was the real problem for him.

In an interview with the *Leicester Mercury* he said that he recalled the last time the National Front marched in Leicester. Five thousand police had to be deployed and the cost had been £250,000. He also said that he believed that it was the intention of the National Front to have *"some sort of confrontation"* with the Troops Out march.

SWITCHING

As a result he applied for and obtained a Public Order Act Ban on marches in Leicester. The I.R.A. however had an alternative march planned which was specifically arranged to prevent the National Front from getting the march stopped. They had quietly put in an application for a march in Birmingham where it is necessary to give three days notice of marches. When the Leicester ban came into effect the I.R.A. phoned up the West Midlands Police and told them that they were switching the march to Birmingham where they believed the National Front would not be allowed to march because of this *"three day rule"*.

They must have been rather frustrated when they were told by the police that the National Front had guessed that this might be their ploy and consequently had put in an application for a march in Birmingham in good time and that there was no question of the march going ahead as the routes of the two marches crossed each other's paths.

■ **NF VICTORY PARADE. We stopped the IRA . . . .** *Again.*

VICTORY PARADE

Completely stymied the I.R.A. were forced to hurriedly arrange a rally on a patch of open space in Leicester where hardly anyone could see or hear them. Flushed with victory the National Front members made their way to Market Harborough where Gartree jail is located and which contains a number of IRA prisoners. A victory parade was then held through the town centre to the clear approval of local residents.

Once again the National Front had shown that they are the only people who actively oppose the I.R.A. in England and who have the professional capability to stop their marches. The Tories and the other groups showed that they are only capable of playing at politics.

It was the National Front, and the National Front alone that had stopped the I.R.A. from spreading their poison.

EDITORIAL No.64. March 1985.

Growth and Repression

1985 HAS SEEN the best start to a year for the National Front since 1979. Membership renewals have been coming in faster than in previous years, while new members and membership enquiries are running higher than for some time.

The print run for *National Front News* has had to be increased to meet new orders, branches like Nottingham and Coventry have come to life after being defunct for years, new branches such as Batley are making great strides after being in existence for just a matter of months, and a burst of expectancy from our members, enthusing confidence in the National Front for the future has sent our *Printing Press Appeal* soaring over £3,000 a gain of £1,000 within a month.

Such growth has not gone unnoticed and 1985 has also seen an increase in attempted repression of our party by the establishment.

COMMUNITY RELATIONS SQUAD

January saw visits to the *National Front News* office by Scotland Yard's Community Relations Squad interviewing staff in connection with *NF News* No. 58 and a story it contained "Alien Wars On Britain's Shores". Days later our paper sellers were arrested at Stamford Bridge and St. James's Park, Newcastle, and charged under Public Order Acts.

Growth for the National Front and repression by the authorities go hand in hand. From Batley in Yorkshire to Rochester in Kent our activists are experiencing that fact of life.

From the civil liberties point of view such repression is outrageous, but from a wider more far-reaching view it might have its benefits.

Our road to power will be the most difficult faced by a political party anywhere in the world. The way ahead will see many forces against us and as we grow our enemies will group together in many an unholy alliance to impede our progress.

CHARACTER BUILDING

It is now that the National Front needs to be made up of men and women who can steer the party along that dangerous road. Men and women who won't wilt when the pressure is turned on. The trials and tribulations we face today are character building; those who cannot take the prickly heat of today will have no place at the forefront of our party when we face the roaring inferno in years to come.

Little do the muddle-heads of the establishment realise that their actions against the National Front *today* are sowing the seeds for a future National Front Government *tomorrow!*

NATIONALISM OVERSEAS

NATIONALISM is once again on the increase, not just in Britain, not just in Europe but right across the world. After several decades during which "nationalism" almost became a dirty word nationalist movements have been experiencing an upsurge which can only be greeted with acclaim by patriots everywhere.

While we might not agree with many of the policies and ideas of some of these groups, the upsurge in patriotic feeling and in racial pride amongst White nations cannot now be doubted and can only help the cause of British racial nationalism.

What Is Their Future in a Non-White World?

■ NATIONAL VANGUARD

IN THE land where multiracialism has already become a real nightmare, some may argue that it is too late to save anything from that country. However for White Americans there is nowhere to run and everything to fight for. A number of organisations exist, many of them grouped around a magazine. The two best are the **National Alliance** which produces *National Vanguard* and the **Populist Party** which is supported by the newspaper *Spotlight.*

While *National Vanguard* is an excellent publication it is of restricted circulation but reflects the best of the new wave of nationalism. The Populist Party was only set up recently but has been growing very rapidly. Amongst its policies are the repudiation of the national debt, an end to forced racial integration by 'busing', stopping all coloured immigration and the destruction of both international capitalism and international communism. Although barely a year old the **Populist Party** is now well established in a large number of states and certainly offers the biggest nationalist challenge to the American two party system.

■ STH.AFRICAN PATRIOT

WITH THE official Nationalist Party beginning to resemble our Liberal Party it is hardly surprising to find that Whites are flocking to the so-called **Conservative Party** and the **Herstigte National Party**. The HNP which is largely **Afrikaaner** is the most rigid in its belief in the separation of the races and has seen steady progress over the last few years.

While it is a shame from the British point of view that it is the English speaking Whites who are so hell bent on racial suicide in South Africa, it is not true of all of them. The best South African paper is the *South African Patriot* which is produced by Alan Harvey. After a number of problems over the years, including the unwanted attention of one Ray Hill, now working with Searchlight, *South African Patriot* now appears regularly and gives a very professional appearance. Its attacks on the Jewish controlled press and mines gives a real insight into where the real power lies in South Africa.

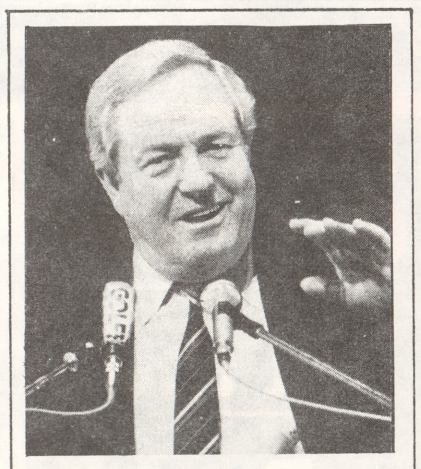
AUSTRALIA

AUSTRALIAN Nationalist movements have long been regarded as, and often were, British imperialist parties which denied that Australia had a future of its own. However a truly Australian nationalist movement has now emerged. **National Action** has been steadily growing and has branches in most areas of Australia. Their newspaper *Audacity* is well produced and provides a unique view of Australian politics. We hope that Australian nationalists will remember our common racial heritage while asserting their right to determine their own future. With South East Asia only a short boat journey away, as thousands of Vietnamese have found out, White Australians have their own struggle to fight.

FRANCE



■ **J.M. LE PEN** *(Chairman, Front National)*

THE **FRONT National** has perhaps achieved the most spectacular growth and now has four Euro M.P.'s and is continuing to achieve excellent results in municipal elections in France. Its growth has clearly been triggered off by the influx of foreign workers mainly from North Africa which has forced thousands of French people onto the unemployment queues.

In many ways the **Front National** is in the same position as the National Front was in the early 1970's when growth came very fast. Unfortunately it is almost inevitable that as with Britain the French political establishment will fight back and will drive away many of the **Front National's** followers who believe the struggle will be easy. However the awakening of the forces of nationalism will remain and could allow a truly radical racial nationalist movement to emerge.

Scotland & Wales Need Special Help

UNEMPLOYMENT IN SCOTLAND has reached 326,000, nearly one in six of the workforce, which means that 16% of Scots are out of a job.

In Wales unemployment is soaring towards the 200,000 mark making Wales one of the poorest regions in Western Europe, where an unbelievable 100,000 manufacturing jobs have been lost in the last five years.

National Front News believes that although Scotland and Wales would automatically benefit from National Front policies to *Get Britain Back To Work*, special help must be given to these areas.

Communications, for one, must be drastically improved, spear-headed by a major rail electrification programme.

The introduction of a housing subsidy to encourage the building of homes together with a ban on second *'holiday homes'* which push up house prices and destroy communities by turning them into ghost towns for much of the year.

Support and investment for power stations and fuel centres to make Scotland and Wales self-sufficient in power needs both household and industrial.

A return to the authentic culture of the areas with support for traditional folk culture, the Celtic and Welsh languages, and a revival, where possible, of tradition and industry.

Help Build Our Party

NF Deputy-Chairman, Nick Griffin, (left) and local paper-sellers get *NF News* onto the streets of Lowestoft.

★ ★ ★

A MEDIA BLACKOUT of our views. Continual Establishment repression. No access to public facilities.

– These are just three of the methods used to silence the National Front. But they haven't succeeded. The courage and determination of *National Front News* sellers have seen to that. Now we have become the largest selling post-war Nationalist paper in Britain.

Everybody agrees that the new format has attracted many people to our Cause. The success of *NF News* can be seen in its dramatic increase in size (4 to 8 pages in less than a year!) and its increase in sales.

However, before we can increase in size and frequency, it is vital that we win the struggle for the streets. Large sales teams mean larger sales. And larger sales means that more and more Britons will join the 'Fight For Britain' for National Freedom and Social Justice.

The message is clear. Help build the Party. Get *National Front News* onto the streets.

Unemployment: Interest Rates: The £.

BANKRUPT BRITAIN!

THE 1980's WERE to be the years when Britain, using North Sea Oil revenue, was going to leap back into the forefront of technological achievement. Our industries were going to expand, unemployment was going to disappear and the pound would reach new heights.

Now halfway through the 1980's our industries are collapsing so fast it is difficult to keep track of the decline, unemployment is at a record high and the pound has slumped to an all time low.

Yet the money from North Sea Oil *has* come in and come in very fast too. Oil exports in December alone were running at £1577 million during the year as a whole they were over £15 billion.

Where has all this money gone? The simple answer is that as a result of the government's total incompetence most of this money has gone, not to build up Britain's industries, but to build up the industries of foreign countries.

Britain is importing more manufactured goods than ever before while there is less money than for a long time being invested at home. To top it all that other unwelcome import our Latvian, Jewish Chancellor, Nigel Lawson, has the affrontery to announce that everything is going according to plan. If it is, then it must be assumed that his plan has not been drawn up for the benefit of the British people.

RELISHES

Presiding over this catastrophe is our would-be Queen and grocer's daughter, Margaret Thatcher who relishes her image as the "Iron Lady", who regards herself as a second Churchill and who takes tea with Reagan while telling him that "the British people love him".

She should remember that it was Churchill who took part in the Yalta agreement consigning millions to their death and that the last British leader who was involved in a tea party in America caused the American war of Independence and was later certified as mad.

Only time will tell what it is that Margaret Thatcher will be most remembered for; what we know is that she is destroying our country, our industries, our independence and our national unity. She must go and go now!

THE CULPRITS

■ LAWSON: Our Latvian import

■ THATCHER: The great Destroyer

NO CRUISE: NO C.N.D.

THE COUNTRYSIDE around Britain's second Cruise Missile base at Molesworth, Cambridgeshire, is to be decimated by a military road that is needed for the base so that the missiles can be deployed around the surrounding area.

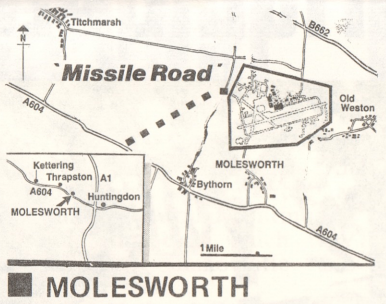
Plans for the road are being pushed through quickly and Cambridgeshire County Council say proposals for the £2 Million project will soon be published.

At the missile site itself *'Peace Campaigners'* are once again, as with Greenham Common, acting as the best recruitment officer for Government policies, Mrs Thatcher could ever have hoped for.

A life-long resident of Molesworth summed up the situation. *"We don't want Cruise Missiles at Molesworth, but we don't want 'Peace Campaigners' either, they are just a load of rubbish".*

Out of all Britain's political parties it is only the National Front's policy on Cruise that reflects the thinking of the majority of British people.

The National Front believes that Britain must have nuclear weapons, but they should be British nuclear weapons, made in Britain and under the control of the British government. Britain doesn't want to be involved in America's wars, and we could be if our countryside is littered with American Cruise Missiles. That is why the National Front says *"NO TO CRUISE, NO TO C.N.D."*



■ MOLESWORTH

MOTHER NATURE COMES TO OUR AID!

TWELVE MONTHS ago *National Front News* called for a ban on a play by the Gay Sweatshop called *"Poppies".*

After a year's touring the play has now been stopped, not by any Government action but by a walk out of cleaning staff at the Talisman Theatre in Swansea who have refused to work with the actors for fear of catching AIDS.

The homosexual bandwagon has rolled on unchecked for the last fifteen years eroding the institute of family life and questioning values instilled throughout generations. But now mother nature has stepped in to stem the assault. By means of AIDS, once again, blatant and extrovert homosexual behaviour will become outcast from society, something to be frowned upon and opposed something unnatural and something queer.

While *National Front News* believes what consenting adults do in the privacy of their own homes is entirely their own business as are homosexual long term relationships that interfere and threaten no one, the idea that homosexuality can become an accepted part of our society must be vigourously opposed.

CAUSE FOR CONCERN

A hostel for homosexuals is being set up by Islington's Labour Council with the help of a £32,000 grant.

Hackney Council are to allow homosexuals to adopt and foster children taken into care and Manchester Council is to spend £100,000 on a campaign to give council jobs to homosexuals and set up a lesbian centre.

Such council action gives cause for concern. The time has arrived for the National Front to take a lead and combat the spread of this 'sickness' in our society!

NF ANIMAL CAMPAIGN ATTACKED

FRAME AN all party group in the House of Commons against animal experimentation has launched a scathing attack on the National Front over its recent Campaign for Animal Welfare.

Chairman for the Trustees of FRAME, Michael Balls, claimed that animal welfare should not be a party political issue and that "Organisations in the broad animal welfare movement should repudiate the National Front in saying that a party with inhumane racist policies cannot be an ally of animal welfare".

National Front News **believes that animal welfare is a party political issue and that the reason for the increase in militant animal rights action is due to the fobbing-off and lip-service attitude given to the animal cause by such groups as FRAME.**

Tory, Labour and Alliance MP's will never do anything for the welfare of animals. They are too afraid of upsetting the Asian or Jewish communities, who by their insistence on ritual slaughter, are at the forefront of cruelty to animals.

The National Front owes no allegance to such groups, so no worries about losing ethnic votes will hinder our campaign for animal welfare.

Steuart Pringle: A Portrait in Courage

■ SIR STEUART: Horrific injuries

PERHAPS THE greatest tragedy resulting from the incompetence of successive governments in Northern Ireland is the needless suffering which has been caused. Most of this suffering has been borne by the people of Northern Ireland but one example which recently came to Court of very great bravery in the face of such suffering involves Sir Steuart Pringle, recently retired as Commandant General Royal Marines.

On 17th October 1981 Sir Steuart had just started to drive his car away from his home in South London when a bomb fixed to the underside of the car exploded. Sir Steuart described the carnage at the trial of the IRA members who are accused of the bombing:

"I heard a roar and saw my legs moving to the nearside of the car. Then I heard the sound of falling bits and pieces and then silence. I could not see what had happened to my legs but I never lost consciousness".

"I looked at my fingers. They were very messy. My head and shoulders were against the driver's door and my left leg was in the well by the passenger seat. I saw that my right leg was a mess. My right foot and shoe were on top of my leg. I knew that I was badly injured by that I was not going to die."

Despite these appalling injuries his next thought was to shout warnings to onlookers to stay away from the car in case there was a second booby trap bomb.

EXAMPLE

Sir Steuart's courage is an example of the best possible character that still exists in Britain today, but how tragic that men like Sir Steuart have to suffer because of a war that should have been finished off years ago with one resounding victory instead of this pussyfooting low profile approach coupled with a political attitude which encourages these terrible acts of barbarism.

On Reflection with Ted Budden

THE SHOW TRIAL in absentia of former concentration camp doctor Mengele was remarkable by even the peculiar standards of the Israelis.

Firstly, they had not the slightest idea whether he is alive or dead; in heaven or hell or in Paraguay. We may discount the suggestion that he has become the oldest practising physician in medical history by acting as medical adviser to Martin Bormann.

Secondly, the veritable horde of the deadly doctor's former patients who turned up to give evidence against him. There they were, all hale and hearty and apparently well above average in health and longevity, not to mention loquac ity.

If anything they were all a glowing tribute to the elusive doctor's skill and one might suggest that instead of the Israelis indicting him for war crimes they might have nominated him for the Nobel Prize for Medicine. I'll tell you what, if they ever find him I intend to be the first to enrol with him as a National Health patient.

SENSE OF GUILT

But of course this bizarre affair had nothing whatever to do with the Israelis' determination to try Mengele or his corpse. It was intended, as always, to imbue the Western nations with a spurios sense of guilt and remind us all of the enormous debt we are alleged to owe persecuted Jewry. This invariably happens when the Israelis are busily engaged in persecuting someone else.

It can be positively guaranteed that whenever the news leaks of yet another Israeli atrocity, it will be rapidly upstaged by a show trial or a TV spectacular portraying Jews as victims.

At present Israel is grievously embarrassed by its debacle in Lebanon. Inevitably the *"trial"* of Mengele is staged to distract attention from the fact that the Israelis have been behaving in Lebanon like old-style colonial oppressors; beating, killing and bulldozing the homes of any who dare oppose them.

Of course the reaction of the Western media to all this, where it exists, is exceedingly muted while the Mengele "trial" receives massive coverage.

Just think of the reaction of "world opinion" if Britain were engaged in such activities.

There would be a well orchestrated chorus of columny and condemnation.

And guess who'd be leading the chorus!

THE FORTHCOMING celebrations of the fortieth anniversary of VE day has occasioned some embarrass ment in official circles because it might offend the Germans for whom the day represents not victory but defeat.

Well if the Germans aren't offended I certainly will be since VE day is, to me, a day of infamy. It represents forty years of betrayal of a nation that gave much of its blood and all of its wealth to achieving that "victory". For me, May 5th 1945 was the beginning of the subjugation of the White race and the pollution of its life blood. I'll not be celebrating.

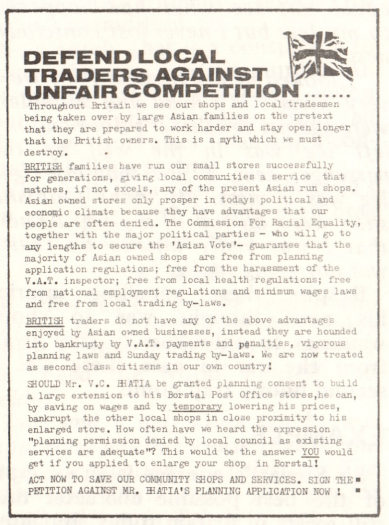
Nor surprisingly, will the Jewish organisations that have, by forcing the enactment of *"race-relations"* legislation, done so much to further that pollution of our race and all but annihilate our national consciousness.

Theirs was the victory but they will not be celebrating. Instead they intend to strike another propaganda blow against nationalism by designating the day as *"Holocaust Day"* and staging a mass rally in Hyde Park attended by the survivors of *"the holocaust"*.

Judging by the numbers of these survivors who have surfaced unscathed since the war, one must seriously ask, will even the vast acres of Hyde Park be big enough to accomodate them all?

But if Zionists decline to celebrate VE day you may be certain their joy will be unconfined on VJ day. The VJ day I have in mind is not Victory over Japan day which falls in August but Victory over Justice in Palestine. The fortieth anniversary of that day is not due till 1987!

NF BACKING FOR LOCAL TRADERS



DEFEND LOCAL TRADERS AGAINST UNFAIR COMPETITION.....

Throughout Britain we see our shops and local tradesmen being taken over by large Asian families on the pretext that they are prepared to work harder and stay open longer that the British owners. This is a myth which we must destroy.

BRITISH families have run our small stores successfully for generations, giving local communities a service that matches, if not excels, any of the present Asian run shops. Asian owned stores only prosper in todays political and economic climate because they have advantages that our people are often denied. The Commission For Racial Equality, together with the major political parties - who will go to any lengths to secure the 'Asian Vote'- guarantee that the majority of Asian owned shops are free from planning application regulations; free from the harassment of the V.A.T. inspector; free from local health regulations; free from national employment regulations and minimum wages laws and free from local trading by-laws.

BRITISH traders do not have any of the above advantages enjoyed by Asian owned businesses, instead they are hounded into bankrupty by V.A.T. payments and penalties, vigorous planning laws and Sunday trading by-laws. We are now treated as second class citizens in our own country!

SHOULD Mr. V.C. BHATIA be granted planning consent to build a large extension to his Borstal Post Office stores,he can, by saving on wages and by temporary lowering his prices, bankrupt the other local shops in close proximity to his enlarged store. How often have we heard the expression "planning permission denied by local council as existing services are adequate"? This would be the answer YOU would get if you applied to enlarge your shop in Borstal!

ACT NOW TO SAVE OUR COMMUNITY SHOPS AND SERVICES. SIGN THE PETITION AGAINST MR. BHATIA'S PLANNING APPLICATION NOW !

THE NATIONAL Front organiser for the Medway towns in Kent, Mr. Sid Campbell, has been visited by the police and informed that a leaflet put out by Medway National Front has been referred to the Director of Public Prosecutions under Section 5 of the Race Relations Act.

The leaflet, *"Defend Local Traders From Unfair Competition"* was distributed in Rochester after the National Front had received complaints from local traders that one *V.C. Bhatia* of the *Borstal Post Office* had made an application to expand his premises.

The leaflet calls upon local traders to *'stem the tide of Asian shopkeepers in the area'* and to sign a petition against Bhatia's planning application.

Paul Johnson, the NF's Kent Regional Organiser, confirmed that the leaflet had been distributed throughout the Borstal area on Thursday February 7th and that the petition against the planning application had been signed by over 300 local residents.

"Many local shop-owners and residents have contacted the National Front" Mr. Johnson told local journalists, *"Expressing their support for the action that the NF has taken so far on this controversial matter. One local trader told me that it was about time the British shopkeepers in the area made a stand".*

NATIONAL FRONT: THE LAST HOPE IN

7 DAYS IN NEWHAM

OUR CITIES ARE becoming dangerous – everyone knows that, but not many people realise just how dangerous. In just one week at the end of January in just one London Borough, the Borough of Newham, the catalogue of crime is horrific.

A 41-year-old hospital worker and mother of two was viciously attacked as she was leaving Newham General Hospital, her assailant after nearly strangling her, then forced her to take her clothes off and raped her. Several people passed nearby but did nothing to help her. Eventually a 32 year-old man came to her assistance after she had been raped for a second time and forced to perform various indecent acts. The attacker was described as a light skinned Asian.

A twenty-two-year-old mother from Plaistow, Georgina Fannon, who had been the victim of a continuing hate campaign, opened her door to a man who viciously attacked her with a razor slashing her across the face.

A teacher leaving a social in Stratford was attacked and beaten up by a gang of youths and had to go to hospital for treatment.

ENCOURAGED

An Asian family were attacked by a large number of youths in Canning Town and had the windows of their flat broken. The police complained that the children were encouraged by their parents.

A 17 year-old girl was indecently assaulted by a 25-year-old half caste in West Ham, only escaping by stubbing out her cigarette on him.

During the same week twenty one people appeared in Court as a result of a whole number of incidents which took place after a *"Fun Day"* at Plashet Park in December. Local residents confirmed that these incidents were the end result of a **Race Riot** which occurred after the "Fun Day".

With a crime clear-up rate which can only be described as a joke, it is a matter of conjecture as to how many more attacks took place but were not reported to the police.

■ VICTIM OF VIOLENCE: Geogina Fannan, slashed with a razor.

This week is not totally unusual, violence has simply become an everyday fact of life in East London, as it has in cities throughout the United Kingdom.

THE OFFICIAL RESPONSE

■ **ALL NEWHAM Council is interested in is appeasing the blacks. Hindu is now being taught in Newham's schools along with lesssons in Caribbean music and dancing. Above. Children learning to limbo during school time.**

WITH SUCH a high level of crime it would be understandable if the local authorities called for the setting up of vigilante patrols or demanded an increase in the level of policing to head off this crisis of crime.

In fact the official response from local authorities is quite different and quite staggering.

The police were in the local newspaper the same week as the crimes listed here, but not to announce a crash programme of crime prevention. Instead and unbelievably they announced that there was to be a drastic cutback in overtime and, in the words of one officer: **"the fight against crime will be reduced to a mockery".**

Another long-serving officer commented: **"The people who are going to suffer are the people on the street – the members of the public and the police officers".** The Police Federation condemned the cutbacks and claimed it would mean **"less protection for officers operating on the streets".** So now it would appear that it is not just the elderly who are afraid to go out at night, now even the police are having second thoughts.

The local Council is Labour dominated and can only be described as a *"rotten"* borough in every sense of the word.

Instead of demanding better protection for the residents of Newham, the Council is far more interested in appeasing the local ethnic minorities. But even they are finding that appeasing the Blacks is like paying dangeld, *give them an inch and they demand a mile.*

PRIORITIES

During the same week local ethnic leaders were attacking the Council for not employing enough Blacks. One cringing Council spokesman replied: "What we have tended to do is to try to improve facilities for ethnic groups within our existing capabilities. We are now making a clear commitment to provide more facilities and expand services". He quoted special priorities for Asians in a planned old people's home as an example.

While providing these *"special facilities"* for Asians it is the same Council that believes in evicting White families if they don't get on well with their neighbours!

The real lesson from this is that if you want to be looked after in Newham, it is essential to be Black and it probably helps to be a mugger.

ONE LONDON BOROUGH

Newham Branch Organiser Dave Thomas (right) and Newham Treasurer Michael Burroughs.

THE NF RESPONSE

WITH THE level of violence, the racial disaster and the lack of any official response, it is hardly surprising to discover that the National Front is growing apace in Newham and is starting to fight back for the White residents of Newham.

It was before Christmas that the National Front took up the case of the McDonnells who were being threatened with eviction for alleged *"Racial Harassment"*. As a result of the NF's intervention the eviction was postponed until after Christmas. As well as helping the family, substantial press coverage was won for the National Front. Many local people have started to see the NF as the only people prepared to stand up for the White community.

OUTRAGE

This coverage was immediately followed by the shocking "expose" that Newham NF was using Council premises for its Branch meetings despite a council ban on the NF. Local councillors expressed outrage that the NF had been able to get round the ban by booking the rooms through individuals. An NF spokesman was reported as saying that they would continue to get round the ban, which they regarded as undemocratic and unjust.

The local National Front is now preparing for when the Council attempt to evict another family, and is stepping up its level of activity. The Branch Organiser, Dave Thomas, now leads activity teams on two nights each week leafletting the area. Attendance at Branch meetings has grown and a number of social evenings are regularly held. Street sales have continued and include the famous West Ham newspaper selling pitch.

With everyone else fawning over our "ethnic communities" many traditional East Enders are coming to realise that it is only the National Front that is prepared to fight for the rights of the indigenous White population, and that is why they are joining Britain's fastest growing political movement.

THE HOUSING CRISIS continued.....

THE LAST issue of *National Front News* highlighted the perils of living in tower blocks. Now our view has been supported by the housing organisation, Shelter. For in a report released in early February, Shelter maintain that thousands of Londoners living in tower blocks who heat their homes with bottled gas could be "living on a time bomb."

And an explosion involving one of the metal gas canisters could bring high-rise blocks down like a pack of cards.

The report also notes:

**Piped gas supplies were disconnected from vulnerable tower blocks after a gas explosion caused the partial collapse of Ronan Point in 1968. However, more and more people have had to turn to gas heating because they cannot afford electricity.*

**Strengthening work carried out on vulnerable blocks is inadequate to prevent progressive collapse after a gas explosion.*

The homes most at risk from gas explosions are the system-built blocks constructed of precast load-bearing concrete panels. The GLC alone built some 1,800 such flats during the 1960's.

Once again, it can be seen that the planners and the politicians had got it wrong. But, as usual, it's the British people who have to suffer.

ETHNIC GRANTS & Community Policing

By Our Ethnic Monitoring Watchdog.

Inspector Brian Knight

LYRICS FROM a black reggae anthem could have lead to a brutal attack on a young Bedfordshire policeman.

'Police-Officer' **by Smiley Culture warns the police to ease up on black youths and, it was after hearing it at Bedford's Civic Theatre, that a crowd of over seventy coloured youths threw bottles at police who were arresting a black man on suspicion of theft.**

Inspector Brian Knight was hit by a bottle which knocked out four of his teeth and left a wound on his face that needed eight stiches. *(January 31st).*

★ ★ ★

MORE BOTTLES were thrown at police again after a reggae concert, this time at the Academy Concert Hall in Stockwell Road, Brixton.

A policeman was stabbed several times in the thigh and another was knocked unconscious when a bottle was smashed over his head. *(January 6th).*

★ ★ ★

IT WAS Brixton again where P.C. Mark Howells 23, was beaten up and left by a gang of black youths he had tried to question.

The young officer was punched and kicked as he lay on the ground. He was later found by another officer and taken to hospital for attention to his injuries. *(February 8th).*

★ ★ ★

A GUIDE to the new Police and Criminal Evidence Act, published on February 7th, reveals that a policeman may no longer order a suspect to remove his hat.

The 'hands-off-headgear' limitation is designed to avoid upsetting religious groups such as Sikhs living in Britain. Joint author of the report, law lecturer Michael O' Conner, admitted "This must tempt wrong-doers to use their hats to hide their hoards".

"It's O.K. he's clean sarge".

★ ★ ★

A COLOURED youth has been remanded in custody charged with causing London policeman George Hammond grevious bodily harm.

P.C. Hammond is 'stable' in hospital after receiving 120 pints of blood in a series of transfusions. *(24th February).*

JASWANT SINGH AND Harjit Singh, two Sikhs accused of making petrol bombs, were told that there would be no retrial after a jury at Liverpool Crown Court had failed to reach a verdict on their case. The same two Sikhs had earlier been acquitted on charges of throwing petrol bombs while at a demonstration outside the Indian High Commission in Liverpool during July when a policeman was set on fire.

When twenty year-old Joe Pearce was accused under the Race Relations Act in 1981 he was told there would be a retrial after the jury failed to reach a verdict and when the retrial failed to come up with a decision he was tried again for a third time.!

SANDWELL COUNCIL have approved a £31,000 a year plan to monitor the ethnic records of council house tenants in the borough. The project requires two research officers, a clerk interpreter and a community relations officer.

Wolverhampton councillors have approved the £11,500 a-year appointment of a public relations officer to communicate with ethnic minorities. The officer would be responsible for informing the ethnic press and ethnic groups on how to promote themselves.

HOUNSLOW ASIAN Womens' Community Centre has been given £80,000 by the GLC to spend on buying 'a home' for their organisation.

Unfortunately they cannot find suitable premises, can you help? If you know of somewhere around the £80,000 mark please write and let Balvinder Gill know! c/o HAWCC, Town Hall, Treaty Road, Hounslow, Middx.

COUNCIL HOUSE applicants in Slough will have to wait a little longer to be housed because of *'queue jumping'* by a *"Drop-in Centre for Young West Indians"*.

No. 35 Bath Road, Slough has been allocated to the coloured immigrant group by the borough housing officer, Brian Hurrell, over the heads of families on the council-waiting list, and the council, in addition, intend to spend £1,000 on the house in preparation.

Hurrell told the *Slough Observer*, *"It will be a place where young blacks can meet, get advice, leaflets, play pool, drink coffee and listen to music!"*

NF News sends its sympathy to the residents of 33 and 37 Bath Road.

★ ★ ★

COLOURED IMMIGRANTS in the West Midlands have been slow on the uptake to spend £32,500 allocated to them by the *Prince of Wales Trust.*

The money, which is available to coloured immigrant youngsters, is for projects that would bring them adventure or help the community.

So far only £2,500 has been allocated, going to two Handsworth bands, *Amlek* and *Unity*, for new equipment.

HACKNEY COUNCIL in East London aims to make a third of its workforce coloured immigrants by the year 1987.

No longer will employment be decided on suitability for the job but the colour of the applicant's skin. Council leader Miss Hilda Kean, the borough's principal race adviser said *"Racism is inherent in all White people and that is why the council is determined to develop anti-racist policies".*

The GLC, however, seems to be bent on making four-fifths of its workforce coloured. A recent advert for management trainees leaves no one in doubt who Ken Livingstone and Co. would like to see "managing London!".

★ ★ ★

THE GOVERNMENT backed Manpower Services Commission is funding a course in management training for coloured immigrants only in the West Midlands.

Although the fifteen week full-time course is aimed exclusively at *"Afro-Caribbean or Asian"* people it is not in breach of the Race Relations Act. A spokeswoman for the Department of Employment said *"while discrimination in job courses on the grounds of race or sex was generally unlawful, there were exceptions where it was felt there was under-representation of those groups and that they needed to catch up".*

★ ★ ★

THIRTY–FIVE per cent of new homes in the Norwood area of Lambeth are to be allocated solely to black people.

That's the decision of the Housing Committee on Lambeth Council which set up a race relations housing team specifically to look after the needs of black families.

Lambeth Council has also launched a drive to increase the number of coloured immigrants working for the council. At present over 35% of white collar workers in housing are black.

★ ★ ★

LABOUR COUNCILLORS on Birmingham City Council have admitted that they are operating a policy of positive discrimination to give favourable treatment to black teachers and pupils in Birmingham schools.

During February's council meeting, chairman of the county's police authority, Ed Shore, disclosed that he would be giving preferential treatment to applications for the police force from the West Indian and Asian communities.

THE SOLIDARITY of the Welsh Miners in supporting the NUM in the miners' dispute is something to be admired by all.

Only four 'scabs' crossed picket lines at Cwm Colliery, South Wales, and two of these, 12 months ago would not have been considered ideal employees by the NCB.

One of them, Fred Young, had been sacked three times by the coal board for continued absenteeism only each time the NUM fought for his re-instatement. While another, Tim Hughes, prior to the strike reaped the benefit of a long battle by the NUM against the down grading of his wages because he wasn't working proper shifts.

Now that's gratitude for you.

JANUARY'S *LIFE* magazine reports that a certain Serge and Beate Klarsfeld hired a Bolivian exile, code named Juan-Carlos, to kill Klaus Barbie the wartime Gestapo chief at his home in Bolivia in 1982. The contract was called off when the Bolivian Government agreed to Barbie's extradition.

Now surely that is a conspiracy to incite others to commit murder. An offence for which a certain London doctor got three years from an American court after financing a contract to kill his partner.

Why is it then that the Klarsfeld's can get away with it, and even brag about it to *Life* magazine?

Gaining a foothold in Batley

BATLEY IS A SOUTH Yorkshire town with a population of 42,000. It has an Asian population in excess of 7,000 and male unemployment stands at 25%.

Batley's MP is Elizabeth Peacock, the first Tory MP the town has seen for many years, and she's following in the tradition of her Labour predecessor by grovelling at every opportunity for the Asian vote.

January saw her visiting the Victoria Youth Association, an Asian youth club, an example of how Mrs Peacock never misses a chance to speak out in support of her coloured constituents.

The courts in Batley seem to favour the Asians as well. When an Asian youth, stabbed a White youth admitting unlawful and malicious wounding, he was fined £75.00. But when Anthony Linley slashed Ebrahim Seedat during an argument he was sentenced to twelve months in prison. Both cases were heard at Batley Court within a matter of days during January.

FURORE

January also saw Batley recruit its first coloured policeman, Vijay Singh, but he caused a furore only hours after going out on his first patrol when he spoke Urdu and Hindi to Asians involved in an argument with their white neighbours despite the fact that the Asians spoke perfect English. The white family understandably felt aggrieved that they were unable to comprehend what Singh was saying to his fellow countrymen.

With all this going on in the town, it's not surprising that Batley has a growing National Front branch.

Last October a handful of NF members got together and formed a group since when membership has increased eightfold. NF Organiser Stephen Crabtree takes up the story,

"Our group has now started weekly leafletting and postering sessions. Last Thursday NF member Robert Peacock was stopped by police and 60 posters were taken off him. He was escorted to Batley police station, but there, refused to give the names of any National Front members that were with him. When he was released he defiantly told the police, in true Batley style, that he would be back postering next week.

Batley work in close co-operation with Leeds Branch and we would like to thank them for all their help advice and encouragement to get the Batley branch started. A typical week for Batley members could involve leafletting on Monday and Tuesday. On Thursday, the Batley Branch meeting, where last month the following resolution was unanimously passed by those present 'This branch unconditionally supports the miners in their fight for pits and jobs'.

Friday sees paperselling around the local pubs while Saturday is usually selling papers at Elland Road, the home of Leeds Utd. Football Club.

Main priorities for the branch committee at the moment are the purchasing of their own union jack flags and a Batley Branch banner."

REPRESSION

The increase in National Front activity in Batley has also led to increased police repression. Stephen Crabtree experienced this first hand when in November he, along with over a dozen NF sympathisers, were taken in for questioning over an arson attack on the home of a Pakistani. The attack, which was reported in local papers as a racial attack, turned out to have been perpetrated by another Asian.

Local left-wing headmaster Alex Fellowes, a former chairman of Batley Anti-Nazi League, has called for a conference of police, teachers, social workers and community relations officers to combat the rise of the National Front in the area.

The road ahead for Batley NF looks fraught with obstacles as the forces opposed to British Nationalism organise against the National Front.

But the young members of Batley National Front are not the sort to wilt under pressure from our enemies. Over the last few months they've made their mark in the town and now they are busy consolidating their gains to make Batley, one of the increasing number of competent NF branches in northern England.

HIDING THE TRUTH OF ULSTER

THE MEDIA IS waging a new smear-campaign against the Loyalists of Ulster.

Many people may have noticed that when a murder is reported by the media, Protestant victims are always described as members of the security forces, whilst IRA and INLA members are usually labelled "innocent Catholics."

One example of this media smear campaign was provided late last year when a milkman, Patrick J. Brady, was shot dead outside Gregagh Dairies, in Boucher Road, South Belfast.

Immediately the media announced the incident as a *"sectarian murder."* However, a prepared statement telephoned to the magazine *Ulster* indicated otherwise:

"Early this morning a unit of the Ulster Freedom Fighters assassinated Patrick J. Brady, an intelligence officer of the Provisional IRA. Brady posed as a representative for Sinn Fein and attended successive Sinn Fein annual conferences in Dublin. Our campaign to seek out and destroy members of Republican terror organisations will continue . . "

Events also bear out the fact that this was not a 'sectarian murder.'

IRA MEMBER

For Brady had arrived at his work with a 15 year-old helper. The UFF only singled out Brady. The young assistant was not harmed.

The media announced that Brady was shot *"simply because he was a Catholic."* However, the facts later emerged – Brady was an active Sinn Fein /IRA member! The 'sectarian murder' was, in fact a political assassination.

It is also worth noting that all of the Loyalist para-military organisations have repeatedly denounced sectarian murders. Indeed, the two main organisations – the Ulster Defence Association and the Ulster Volunteer Force – have been instrumental in enforcing cease-fires.

The media deliberately fails to represent the Loyalist Cause in a fair and impartial way. Instead, the media serves only to perpetuate Ulster's tragedy by biased reporting and out-and-out lies!

FREE Sammy McGaw!

SAMUEL McGaw is a 34 year-old Loyalist Prisoner. He is completely innocent of any charge – yet he is serving a life-sentence for a murder he did not commit!

The murder was admitted by another prisoner, Kenneth McClinton. McClinton is now a *'born-again'* Christian.

However Sammy's case has not yet been re-opened by the police. This is despite the fact that McClinton made a full statement to the RUC – nearly three years ago – admitting full responsibility for the killing.

Officials of Sam's welfare group, Loyalist Prisoners Aid, have approached the Northern Ireland Office asking for the case to be re-opened. To date, they have had no success.

INNOCENCE

The situation is now so bad, that even McClinton has come to Sam's aid. He has named Detectives Simpson & Forde, of Tennent Street RUC, as the men who have the records which confirm Sam McGaw's innocence.

It is no wonder that Loyalists have become disillusioned with the System. It is sickening to see Republicans walk free, whilst innocent Loyalists remain jailed.

The National Front has always been in the forefront of the campaign to support Loyalist PoW's. In this latest case we say: Free Sammy McGaw – NOW!

DARLINGTON PAPER SALE

DARLINGTON COUNCILLOR, Pat Buttle, is worried about the growth of the National Front in the town.

"I know there is support for the Front amongst the young, especially in some of our schools". **she told the** *Darlington Evening Despatch* **adding,** *"We can't stop them giving away leaflets, but it worries me that they are getting their message across to the younger generation."*

The councillor's remarks were prompted by a paper sale by over twenty local NF activists in Darlington Town Centre on Saturday January 26th. Shoppers had been leafletted in Northgate and High Row while copies of *National Front News* **were being sold in the entrance to Queen Street Arcade.**

A spokesman for Darlington police told the *Despatch* **that there had been no problems arising from the Front's activity.**

ANAL UPSET ASIANS

MEMBERS OF the Anti-Nazi League ended up in trouble when they went 'to the defence' of an Asian shopkeeper in Newcastle.

The Tyneside and District ANL swung into action when National Front stickers were spotted plastered over the front of the Asian's shop.

They decided to retaliate by placing their own stickers over the NF ones. However the shopkeeper was not amused and called the police because of the mess on his premises.

Now the League members have had to apologise and give an undertaking that it will not happen again.

CALLING THE KETTLE BLACK!

"GO AND JOIN the National Front", shouted Labour MP Clare Short in the House of Commons after hearing Conservative MP John Townsend put some of the increase in unemployment down to immigration.

Mr. Townsend, the MP for Bridlington, had said, *"If the Labour government had enforced stricter immigration controls we would not have the same problems we have today".*

Of Course Mr. Townsend is either naive or stupid The Conservative Party are just as much to blame for the predicament Britain finds herself in, in fact, it was *'Rivers of Blood'* himself, Enoch Powell, who started the Third World invasion of our tiny island when, as Health Minister, he advertised for coloured immigrant doctors and nurses from Asia, Africa and the Caribbean.

Front Opposes Farm Council Report

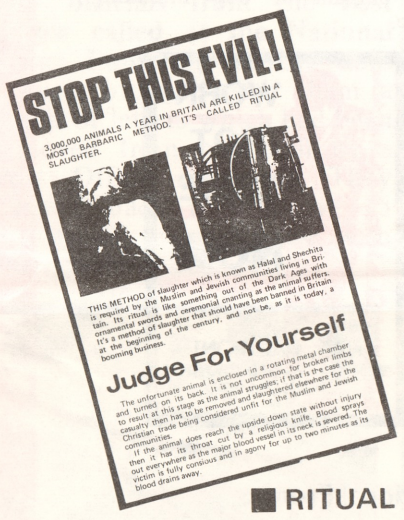
THE NATIONAL FRONT is totally opposed to the Farm Animal Welfare Council's plans to allow deer to be killed for meat in commercial slaughterhouses throughout Britain.

The council, in a report to the Minister of Agriculture, have recommended that the law should allow deer to be killed in abattoirs throughout Britain in the same way as sheep, cattle pigs and poultry are normally killed.

NERVOUS

The National Front believes that it would be cruel to subject deer, which are amomgst the most nervous and sensitive of animals to the stresses of slaughterhouses.

Britain today has an adequate and successful method of deer farming. There are over 100 farms in Britain producing in excess of 3,000 deer a year to satisfy the growing public demand for venison, farms where the animals are shot by high-powered rifles actually in their natural habitat.



STOP THIS EVIL!
3,000,000 ANIMALS A YEAR IN BRITAIN ARE KILLED IN A MOST BARBARIC METHOD. IT'S CALLED RITUAL SLAUGHTER.
THIS METHOD of slaughter which is known as Halal and Shechita is required by the Muslim and Jewish communities living in Britain. Its ritual is like something out of the Dark Ages with ornamental swords and ceremonial chanting as the animal suffers. It's a method of slaughter that should have been banned in Britain at the beginning of the century, and not be, as it is today, a booming business.
Judge For Yourself
The unfortunate animal is enclosed in a rotating metal chamber and turned on its back. It is not uncommon for broken limbs to result at this stage as the animal struggles, if that is the case the casualty then has to be removed and slaughtered elsewhere for the Christian trade being considered unfit for the Muslim and Jewish communities.
If the animal does reach the upside down state without injury then it has its throat cut by a religious knife. Blood sprays out everywhere as the major blood vessel in its neck is severed. The victim is fully conscious and in agony for up to two minutes as its blood drains away.

■ RITUAL SLAUGHTER LEAFLET

UPROAR AT NF LEAFLET

ROCHDALE NATIONAL Front have stirred up a hornets nest with their local campaign against ritual slaughter.

The 35,000 strong Pakistani community in the town are livid that what was meant to be the quiet transition to Halal Meat school meals in two Rochdale schools has been highlighted and exposed by the local Front's campaign.

A council circular has been sent to both Sparrow Hill and Heybrook Junior Schools warning teachers and pupils to be on the look out for racist posters and racist literature and report *'any sightings'* immediately.

And there's plenty of them around! Over 300 *Ban Ritual Slaughter* posters and 2,000 *Stop this Evil* leaflets have been put out in Rochdale town centre, leading to a full page debate in the *Rochdale Observer* between the Front, the RSPCA and Pakistani community leaders.

MAKE UP FOR

Chairman of Rochdale NF, Peter Barker, is pleased with the response to the campaign, *"Rochdale is not a rich National Front branch, but what we lack in economic terms, we make up for in effort on the streets. Our campaign against ritual slaughter has really pricked peoples' consciences and hopefully will spur the council into taking another look at its Halal meat policy."*

The National Front's *Stop This Evil* leaflet is available at £5.00 per thousand plus £2.35 postage from 50, Pawsons Road, Croydon, Surrey CRO 2QF.

POST OFFICE: Commercial Venture or Social Service?

BRITAIN'S PENSIONERS and Britain's disabled will be faced with further hardship during 1985 as the Government, in its never ending search for profit, sets about the closure of 1,100 urban post offices.

Already, in the first two months of this year over 200 sub post offices and major crown offices have been closed bringing a growing number of complaints from elderly, handicapped and infirm people who are finding it increasingly difficult to pick up pensions and benefits

The Government made *'great play'* of the fact, when announcing the closures, that consultation with local groups would be a priority in deciding where the cuts took place. However this has not been the case; once a post office has been singled out local complaints have made little difference.

£116 MILLION PROFIT

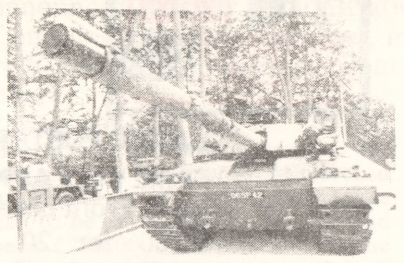
The Post Office made £116 million profit in 1983–84 and £40 million between April and September last year. But for this Government it's not enough, they want more. The closure of 1,100 urban post offices will bring a further £15–20 million profit at the end of the year.

The Conservative Government believes that the Post Office should be a profitable and commercial venture that makes money for them. **The National Front believes that it is a social service whose main function is to look after Britain's pensioners by facilitating the drawing of pensions by a generation of people who have served Britain loyally during much of this century.**

■ BRITAINS PENSIONERS. Hit by Post Office closures.

They've Got Us By The Ball Bearings!

ITS HIGHLY LIKELY that if Britain was involved in a dispute with Russia the first steps the Soviets would take would be to put Britain's Chieftain tank out of commission.



■ CHIEFTAIN: No British Ball bearings.

How on earth can they do that you may ask? Easy is the reply, by stopping the export of ball bearings to Britain!

Yes the backbone of Britain's field defences relies solely on Russian ball bearings. Industry minister John Butcher admitted that the Army regularly buys tank spares from Red China and Iron Curtain suppliers because they're cheaper.

So now we have it! This Tory government is putting the defence of the realm in the hands of a foreign power just to save a few pounds. To what depth will Mrs Thatcher's thirst for profit allow this country to sink?

SUBSIDISE RURAL BUS SERVICES

"I SEE GREAT dangers in privatisation proposals and the prospect of a deterioration in services which could never be reversed".

That was Lord Shepherd, the recently retired chairman of the National Bus Company, echoing the National Front's case against the Department of Transport plans to sell-off the NBC.

The National Front believes that the Government's proposed legislation for the bus industry would hasten the decline of Britain's rural communities cutting them off from the rest of Britain. The National Front would positively help and support rural bus routes by subsidies and grants regarding it as an essential artery in communication throughout Britain.

EAST END GRAFFITI

NATIONAL FRONT supporters who wanted to add a touch of realism to the BBC's new multi-racial serial *Eastenders* have upset the programme's coloured actors at Elstree Studios, Hertfordshire.

SNEAKED

'Three white youths' sneaked passed the guards and sprayed NF slogans all over the background set which was to be used by Asian, West Indian and Cypriot actors the next day.

However the programme's management wasn't interested in realism and ordered the graffiti to be scrubbed off. Apparently there aren't any black muggers in the series either . . .

Imports Equal Unemployment

"ALL GOODS BOUGHT in Britain should be made in Britain in British factories by British workers". **That is the central theme of the National Front's policy to combat unemployment.**

Today, for the first time ever in the history of our country, imports of manufactured goods are exceeding exports. This is the main reason why unemployment is standing at three and a half million, a state of affairs that unless checked will undermine the very existence of the British people.

The National Front will get Britain working again by the control and ultimate phasing out of foreign manufactured imports, ensuring for OUR producers a large and secure home market.

The survival of Britain as a sovereign nation looking after the welfare, needs and growth of our people depends on the ability to provide both goods and services for them free from competition of foreign goods and free from the burden of debt interest which casts a shadow over the whole of British industry today.

The National Front believes in the creation and re-creation of industries. Industries that have previously been allowed to die will be revived and modern high technology industries which have never been established will appear.
